

Regarding Indiana's Telephone Privacy Law, I do not think the FCC should make ANY changes in the law. Evening meals are now a quite family time. No more rude/pressure sales pitches. Instead of 8-10 daily unwanted interrupts during nap times and meal times now we only get 1-2 per week. This "No Call" law was a blessing to consumers. It has restored the evening quality family time in our household. The time we need and enjoy talking to each other regarding our day events. That time had been taken away by unwanted telemarketing calls until this law went into effect.
